Description

This manufacturer developed the Defender Series iPad mini 1/2/3 case to create the most usable and protective solution possible. The inner shell of the case is made from impact resistant polycarbonate that protects the back of your iPad from scuffs and scrapes. A screen protector is built into the polycarbonate shell to protect against scratches without compromising sensitivity. The outer layer is made from rugged silicone and absorbs impact while the textured exterior provides added grip. A shield stand acts as a protective cover to the front or back of the case and doubles as a kickstand for typing or watching movies.

- ***Durable two-piece polycarbonate inner layer snaps together to form a snug fit
- *** A screen protector is built into the inner-shell to prevent scratches and smudges while retaining the sensitivity of the touch screen
- *** Rugged silicone slipcover wraps around the polycarbonate shell to create a rock-hard defense against bumps and drops
- *** All features and functions are completely accessible through the case including the speaker, headphone jack, camera and charging port
- *** Silicone plug covers keep the dust and debris out of the main openings without interfering with usability
- *** A polycarbonate case cover fits over the front or back of the iPad mini and doubles as a kickstand to view in portrait or landscape mode
- *** This Defender Series iPad Mini case provides added protection against bump, shock, drop and dust intrusion.
